

Business as usual!

We take this opportunity to assure all of our loyal Holiday and Excursion clients that it is very much 'business as usual' here at eddie brown's.

Despite some malicious and unfounded rumours that have been doing the rounds in our local area, eddie brown tours is not going out of business or closing down. In fact, the recent developments at our Travel Centre and Depot have involved a significant investment, securing our current and future business.

A number of staff changes have been part of this process, and new members will be joining our well established Operational team in the near future as part of moving the business forward.

Managing Director Deirdre Brown was happy to announce this exciting news on behalf of the company saying *"This fantastic investment not only helps to secure the future of my family's business, but it also allows us to continue with investment in new vehicles and provide quality, reliable travel services to our thousands of customers. I look forward to welcoming on board both our loyal clients and new customers for many more years to come, and continuing the personal service and attention to detail that my parents started 65 years ago"*.

Therefore, we look forward to seeing you all again on our daytrips and holidays later this year, and you can be assured of our usual high quality service, vehicles and superb choice of destinations.

CORONATION STREET TOUR

The Coronation Street cobbles at the soap's former home at the Quay Street site in Manchester will be opening to the public this spring for a limited time only. This behind the scenes guided tour is based around actual sets and props used in filming at the Manchester site over the last 53 years. Visitors will be able to hear stories and fascinating facts about the making of the world famous soap opera, as well as walk down the hallowed cobbles and have a picture taken at the bar of the Rovers Return. Although most of the former Granada Studios Tour has long since gone, walking down the cobbles was the favourite part. The famous Corrie cobbles remain intact as well as selected stage sets in Sound Stage One which will be opened up for the very first time.
